

# JACKSON RANCHERIA POKER ROOM BAD BEAT RULES

1. The Bad Beat will be awarded when "Aces Full of Jacks" or better is beaten by a hand of greater value in the game of Texas Hold'Em.
2. In both the winning hand and the losing hand of a jackpot, both hole cards of both hands must be used. In the case of duplication, the card in the players' hands will take precedence.
3. A minimum of four (4) players must be active in a live raked game.
4. There must be a minimum of \$15 dollars in the pot for a jackpot to be awarded. Once the pot contains \$15 or more, a dollar will be collected from the pot and contributed to the bad beat.
5. In order for a player to receive any table share of the jackpot, a player MUST have been dealt in the hand in which the jackpot was hit.
6. The jackpot is void if the deck is not correct.
7. Any foreign objects on the table that can hide a card may, at the discretion of the Casino Management, cause the jackpot to be null and void.
8. The funds collected from each day will be distributed according to the "Funds Guidelines" and posted on the following gaming day.
9. When a jackpot hits, the amount displayed on the jackpot sign at that time will be paid in accordance to the "Payout Schedule."
10. If in the event more than one jackpot hits at one time on separate tables (or while processing the first Jackpot), the hand in which the first card was dealt first will get the posted Jackpot amount and each additional jackpot will pay the appropriate reset amount.
