

# FOUR CARD POKER

## Four Card Poker House Rules

You receive five cards to make your best four-card poker hand. The Dealer receives six cards to make their four-card poker hand. See table layout for ranking of hands.

### PLAY VS. DEALER

Bet on the required Ante spot to play against the Dealer's hand. Best four-card hand wins.

The player wins ties.

If you bet on the Ante wager and want to stay in the game after viewing your cards, a wager must be made on the Play spot. The Play wager has to be at least equal to the Ante but may be up to three times the Ante. It's your four-card poker hand against the Dealer's four-card poker hand - best hand wins!

The Ante and Play bets pay even money.

### AUTOMATIC BONUSES

The top three hands in the game - four of a kind, straight flush, and three of a kind - receive an automatic bonus payout on Ante bet - see table for odds.

### PLAY ACES UP

Bet on the Aces Up spot and win when you're dealt a pair of Aces or better. The Aces Up bonus is always paid - even if the Dealer has a better four-card hand.

Aces Up wagers and Automatic Bonuses are paid even if the Dealer has a better four-card hand.
